

February 13, 2010

Meeting called to order by Chairman Glenn Wilson. Sal Landi and John Spanos were also present. The meeting minutes for January 9, 2010 were read & accepted as written. The commissioners reviewed letters sent to MPM dated February 12, 2010 and to NHDES dated January 14, 2010 was reviewed. Commissioner Wilson stated that the log book has been put at the pump house on January 18, 2010. A letter has also been sent to operator James Cruthers with information the commissioners are requesting. At this time it is unsure of the status of the book. Commissioner Wilson distributed a copy of the water rate survey he finished to the other commissioners. He also furnished a copy to town administrator Denise French earlier this month. The commissioners reviewed the water/sewer expenses for 2009. All commissioners agreed that an increase on both water and sewer is in need again as we are not meeting expenses. The commissioners will be meeting with the selectmen either on February 17 or March 3 to discuss the proposed rate increase. The commissioners visited the 26 South Bennington abatement request. The commissioners voted to stand by their decision as stated in a letter dated February 8, 2010. A follow up letter will be sent with the commissioner's decision. The commissioners did state that the sewer may be abated if the owners can show proof of an internal leak within the home. Commissioner Spanos asked the other commissioners present if it would be permissible to take pictures of the water/sewer facilities and show them on town meeting day at the poles. Commissioner Wilson and Landi had no problem with it. We will be meeting some Saturday to take pictures of such locations along with pictures of the commissioners. With nothing else to discuss before this board, Commissioner Spanos made a motion to adjourn, which was seconded by Commissioner Landi. Meeting adjourned at 12:05PM

Submitted by Commissioner Glenn Wilson

Accepted by Commissioners
